VERSE 1

Maybe I... could have done better to look past the who hurt who
and maybe you, maybe you could have wanted to stay
and maybe we, maybe we're better this way
maybe we'll cry, maybe we'll pray
what does it matter anyway?

VERSE 2

Maybe I... could be better than this, could be more than what I do
but maybe you, maybe you just won't understand
or maybe we, we never did exist, never lived and died like this
but baby he, he ain't your maybe man
and I know I am, I know I am

CHORUS

maybe getting by, maybe overdue
maybe tired of thinking this through and through
and baby why, can't I close my eyes
just once and not think maybe you, maybe you

BRIDGE (INSTRUMENTAL)

CHORUS

You know I, may be getting by, may be overdue
may be tired of thinking this through and through
and baby why, can't I close my eyes
just once and not think maybe you, maybe you

VERSE 3

but maybe I... can learn to forget everything that I knew
or maybe you, won't remember me at all, and if that's true
maybe we, don't have to be friends and maybe we just had to end
but if forever comes around again to just one maybe I, baby I do
maybe you
