### INTRO (Spoken)

Parting words are never kind  
it hurts when through is through  
and with your last goodbye you said it might have worked  
if I were more like you

### PRE-VERSE/REFRAIN

If I were more like you...

### VERSE 1

I'd launch your heart on empty promises  
then leave you shipwrecked in the storm  
I'd watch you burn down every memory  
just trying to keep warm  
that's what I'd do  
if I were more like you

### PRE-VERSE/REFRAIN

If I were more like you...

### VERSE 2

I'd pour a daily double shot of pain  
to keep you high on strife  
and when I said I got your back  
I'd have it with a knife, yeah I'd have it with a knife  
like you had mine too  
if I were more like you

### BRIDGE

We are what we are  
people don't stay changed for long  
and if I could just be more like you  
well, I couldn't be more wrong

### PRE-VERSE/REFRAIN

If I were more like you...

VERSE 3

I'd tie you to the edge with heartstrings  
then push you off the side  
see how you like the freefall  
when love's gravity takes you for a ride  
yeah takes you for a ride

VERSE 4/OUTRO

And when you bottomed out  
I'd walk in and take your pride  
steal your heart and soul, hopes and dreams  
'til there's just emptiness inside  
leave you stranded like the groom who lost his to-be bride  
somewhere between I and do  
not a single word ringing true  
bad times and goodbyes would be all you knew  
if I were more like you  
if I were more like you
